

A.S.A.P.®

All Surface Access Polishers

More Shine. Less Time.

A.S.A.P.® Polishers are a simple and effective, two-step intraoral polishing system that provides a high luster and shine in as little as 30 seconds.

“A.S.A.P. Polishers save chair time by quickly polishing porcelain and composite restorations in less than a minute.”

- Danièle Larose, DMD, AAACD

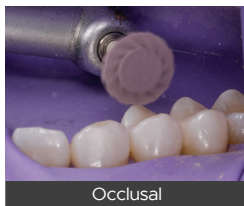

Access to All Surfaces

The spiral shape allows access to all surfaces of the restoration, reducing the need to inventory multiple systems.

Fast, High Shine

A.S.A.P. Polishers (Pre-polisher and Final High Shine) are diamond-impregnated, providing a 67% faster polish and an 86% higher gloss than a leading polishing system¹.

Maximum Gloss Per System

¹Lawson, N. University of Alabama at Birmingham, School of Dentistry. Gloss of composites with the use of two polishing systems. April 2022.

Durable

A.S.A.P. Polishers can be autoclaved up to thirty (30) cycles, making them durable and cost-effective.*

*Placing excessive pressure on the polisher will lead to premature degradation. The polishers will also wear faster on harder indirect surfaces.
